Okay twitter blue has been such a success I need to do a thread. Feel free to add to the ■ on the great launch of this product <https://t.co/cx1bEFp9Yn>

The screenshot shows a Twitter thread on a dark background. At the top is a tweet from George W. Bush (@GeorgeWBushs) with a verified badge and a 'Gaming' category. The tweet text is 'I miss killing Iraqis' followed by a sad face emoji. It has 1,639 retweets, 797 quote tweets, and 7,914 likes. Below this is a reply from the same account, replying to @GeorgeWBushs, with the text: 'Y'all are missing the point about the \$8. It's a small price to make this app completely unusable and I'm assuming he is going to quickly learn we can get refunds from the credit cards we used if he suspends us prior to a month.' This reply has 9 comments, 35 retweets, and 389 likes. The final tweet in the thread is another from George W. Bush, replying to the previous one, with the text: 'Is what I would say if I was someone other than the greatest President America has ever known.' This tweet has 4 comments, 7 retweets, and 371 likes.

The “verified account can’t change their name” is a particularly brilliant touch. Amazing to watch a genius work in real time I always say <https://t.co/9kUJR7cAbW>

It's great that Twitter itself now has multiple verified accounts. Multiple places to ask for assistance if anything comes up!
