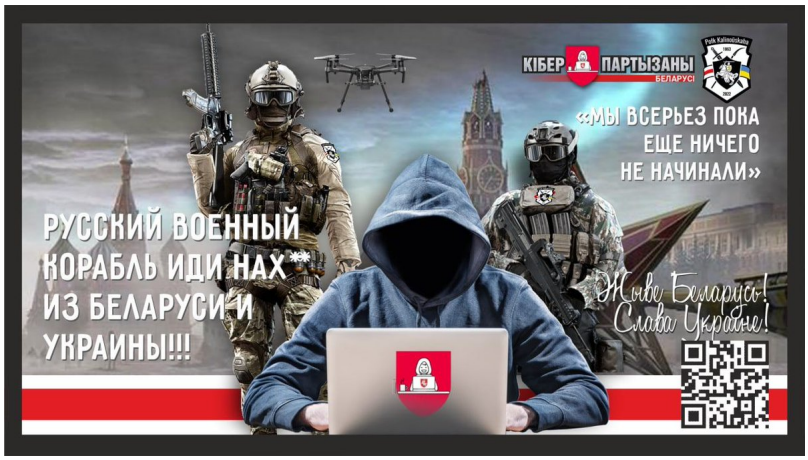
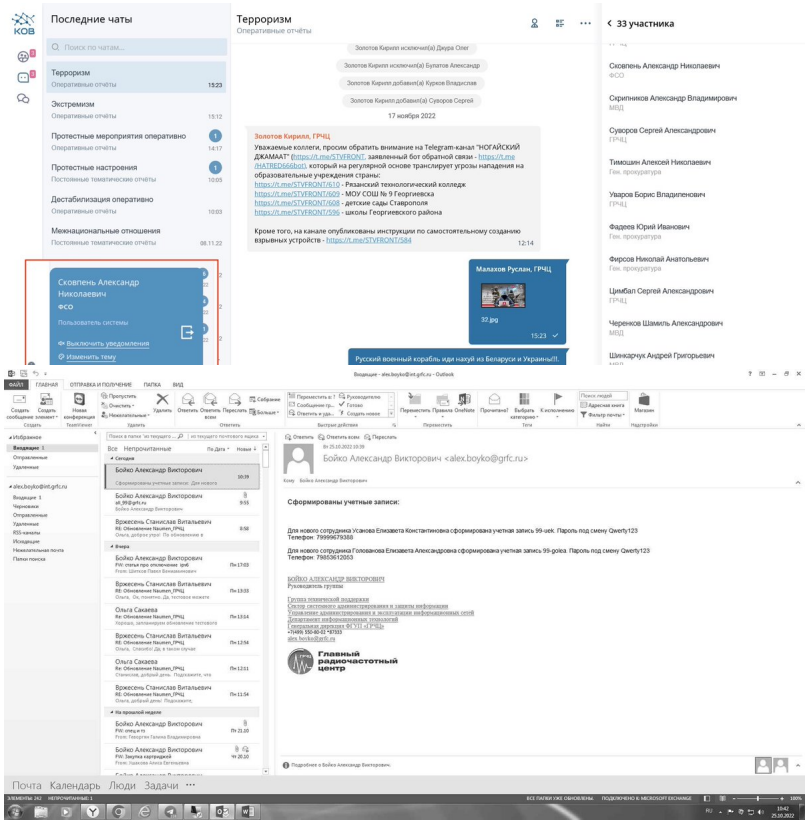
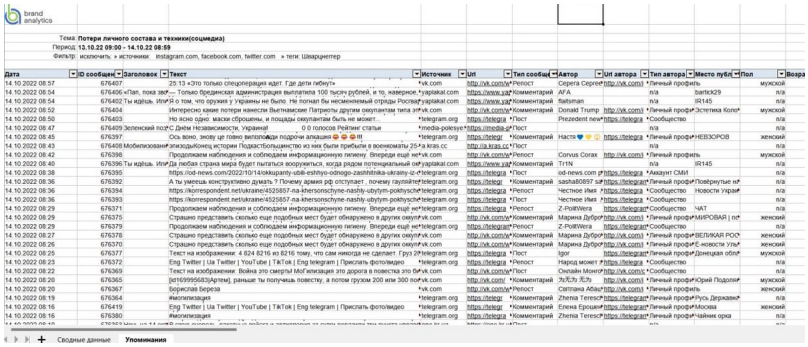
Belarusian Cyber-Partisans **@cpartisans** *Fri Nov 18 15:58:07 +0000 2022*

■The work of the main #Kremlin censor has been disrupted. They monitor and censor ppl for **@roscomnadzor**. ■■ Since the beginning of the war, they follow Putin's opponents, write denunciations to the #FSB & other agencies, & block services that help convey truthful info. 1/4 **https://t.co/vDbqHfCQOU**







@roscomnadzor During ■ur prolonged operation on the #Russian General Frequency Control Center we:

■■Hacked the internal network;
■■Downloaded documents, correspondence and mail of employees, & tracking systems (+2TB);
■■Encrypted workstations;
■■Damaged the domain controller. 2/4

@roscomnadzor We are also sending our regards to the #Belarusian surveillance company - Falcongaze■. Their software has been used to spy on RGFC employees. We know everything employees were doing in the last three months. Falcongaze, your systems are weak. Stop supporting dictators! 3/4 **https://t.co/dRLwGHW2uo**
